General Chemistry I, CHEM F105X

4 Credits

Spring 2022

will typically consist of approximately 15-20 questions. Each HW assignment is worth 10 points; 10 assignments x 10 points = 100 points total.

Quizzes: Quizzes will also be administered through Blackboard. Quizzes should be submitted by 11:59 pm AST on the due date as indicated in the schedule below. Quizzes may not be taken late. A quiz will become "live" following the completion of the chapter and will have a time limit to complete each quiz. In other words, you will have 24-48 hours to complete a quiz once it becomes live, but once you begin you will have a set amount of time to complete it based on the number of questions and the difficulty, typically 30 minutes. Late quizzes will not be accepted. Each quiz is worth 10 points; 10 quizzes x 10 points = 100 points total.

A note on HW and quiz points: your scores on homework and quiz assignments are based on the points you earn through correct answers divided by the total points possible. For example, if the HW assignment for Chapter 3 were to have 18 points possible and you earned 16 points, your score would be 89% (rounding up from 0.888(up

Evaluation

Grades

General Chemistry I, CHEM F105X

4 Credits

Spring 2022

Altering grade records of their own or another student's work;

Offering a monetary payment or other remuneration in exchange for a grade; or

Violating the ethical guidelines or professional standards of a given program.

For more, see [Students Rights and Responsibilities](#).

Extended Absence Policy

Extended absences are defined as missed classes or course work by students beyond what is permissible by the instructor's written course policies. Students may need to miss class and/or course work for a variety of reasons, including, but not limited to:

- Official UAF activities such participation in athletic events, conferences, etc.

- Bereavement

- Personal illness or injury
