

UNIVERSITY OF ALASKA

FY14 OPERATING BUDGET DEVELOPMENT GUIDELINES

INTRODUCTION

UA began its strategic direction efforts, "Shaping Alaska's Future 2017," in the summer of 2011. Over the last 6 months, over 80 listening sessions have been conducted with students, faculty, staff, business leaders and employers, elected officials, alumni, donors, partners and community members to discuss how the UA System can become more productive and align with the priorities of students, employers and the people of the state. With the listening sessions

- x Research that tackles pressing Alaskan and National issues that uniquely positioned to address and that have the potential to attract high interest and create a source of alternative revenue

Educational output priorities for the University will not change significantly.

- x Enhance college readiness and student success with emphasis on efficient student enrollment, advising, retention and timely completion at all levels
- x Prepare Alaskans for the State's high demand jobs
- x Win more competitive research grants and create commercial value from intellectual property spin offs

As usual we will continue our efforts to align with public service, conduct outreach, increase development, and pursue engagement efforts. International opportunities will be discontinued at Statewide and encouraged at all three MAUs.

FIXED COSTS

Fixed Costs/Administrative Requests will be developed using systemwide standards. Information Technology (IT) and business process improvement initiatives will be vetted through the Information Technology Executive Council (ITEC) and Systemwide Administrative Leadership Team (SALTA). As part of the fixed cost review process, each MAU will follow the new approval plan for any new facilities

PERFORMANCE FUNDING POOL

Each MAU will control the distribution of its FY14 performance funding pool, to be used in support of performance related strategies. One percent of general funds are the expected funding pool size, although annual circumstances will dictate the exact amount chosen by the MAU for internal reallocation. In the FY14 budget and planning process, MAU performance evaluation and reporting requirements are based on the State of Alaska's requirements. As the Strategic Direction Initiative continues, additional metrics will be developed.
