#### **RESEARCH ACTIVITIES**

#### History

My 2017 MSc Thesis project explores appropriating military reconnaissance products from thercoldera and repurposing this archival data for detecting geomorphic change and infrastructure risk in remote and understudied circumpolar regions. Further application of applied interdisciplinary spatial analysis methods was a project for the National Park Service in coastal North Carolina (through East Carolina University) to capture,m ()Tj ET Q q 407.16 741.8653.9 (ol)6fz(e)-1.7 ()10.9 ET Q q 407.16 7d v (s)8.61/c6.3
