Instructors Creating and Viewing Alerts (outreach) in Nanook Navigator

Why issue an alert?

Alerts provide staff and faculty with the ability to draw attention to students or prompt a referral with another department using the platform. Alerts are completed as necessary year-round.

Who does the alert go to?

Alerts are sent to the specific staff or departments (see [progress report guide](#) for more information).

Instructors Viewing Alerts & Cases

How do I view my issued alerts?

1. Issued alerts show on the Professor Home in the My Issued Alerts section (bottom of professor home page). This allows instructors to see alerts they have issued, including links to any associated Progress Report.
2. Instructors can click the case and see a window that explains which alert reasons opened the case, the status of each case, and the case outcome if the case has been closed.
3. If the alert is linked to a Progress Report, the instructor will be able to click and open the progress report to view details as well.
4. To access the student's profile, you can click on the student's name or the quick search in the top right of the Professor or Staff Home page.
