# Native Studies by Maricia Luper

Luci Abella's course has been

beneficial. I learned that Natives are

all we need to do is to communicate with one another and unite.

Our guest speakers touched on important

topics that led me to conclude that we do need to work together to protect what we have left.

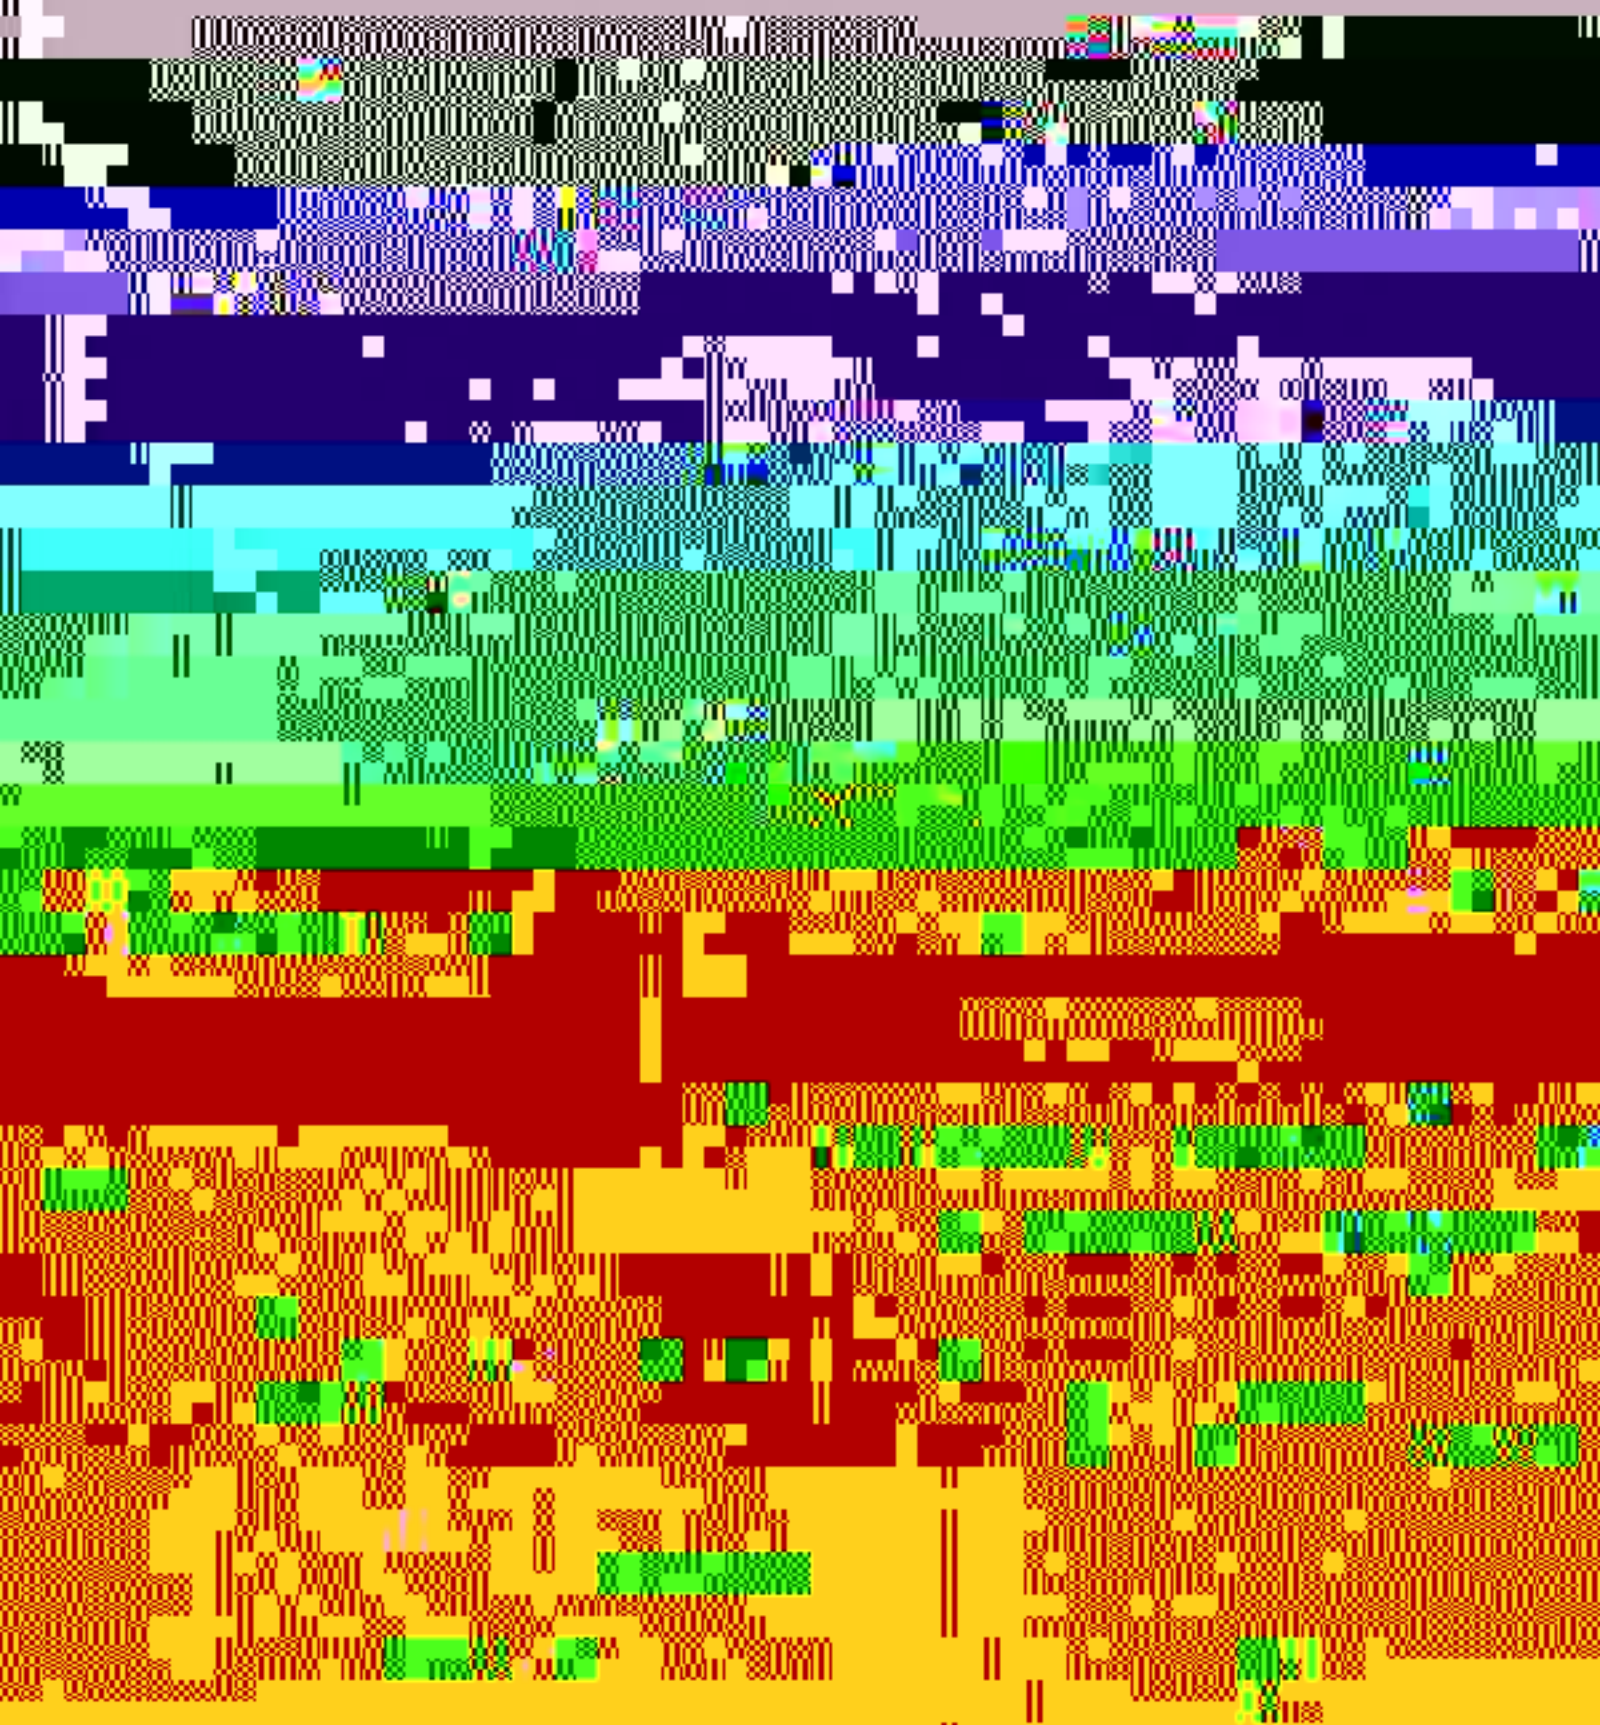

it takes court case after court case to get the federal law

to see what Natives believe in, we need to get to our intended place in this biased

By learning about our culture, we have begun to see a vision

of our people. It is sad. I am also proud to be a Native American.

## College Knowledge by Dawn Ruby

College Knowledge is a job reflection on a much more freedom and more responsibility. You, and only you, are responsible for your life at college. You are responsible for your course load at college. You are responsible for your time management. You have learned the importance of time management. You have learned the importance of time management.

... (look at the phone bills when  
... folks!), and peer, academic
