A collage of various images. At the top left is a green landscape with trees and a path. Below it is a person wearing a red jacket and a blue shirt. To the right is a person wearing a yellow shirt. The background is a textured green surface.

...available enlightenment not
entertainment. (He is a fan of the TV series *Breaking Bad*.) His hobbies include reading, writing, and playing chess. He says his favorite activities are chess and reading. "I'm a huge fan of chess," he says. "When George is not working he is most likely to be found in his office, trying to finish his "stupid" novel. (His only published book is *That I Had a Potato Chip*, which I now know, during the time of Clinton, I know that much about what's worth it.) He would like to be reincarnated as a soccer player without soccer parents." —SARAH JONES

WINTER

Winter is here, and it's time to play!

SNOWBALL FIGHT

It's time to have some fun in the snow!

Get your friends together and start throwing snowballs!

Be careful not to get too wet or cold!

Have fun and stay safe in the snow!

Winter is here, and it's time to play!

Kyan Olanna
Shismaref
Senior

Kyan Olanna was born June 29, 1977. She is 19 years old. Her favorite name is Hot Licks. Her favorite class is Native American Studies. She likes to play basketball, eat Lifesavers, and writing. The hardest thing for her to do is stay awake in class. the most important thing she gained from school is her superio. She would like to be found in her own little world. She wishes

Rhonda Pitka
Beaver/ Fairbanks
Senior

"In Engineering, we students mostly do work in subjects like math and science. Also, we went to a lot of field trips like the permafrost tunnel, the Musk-ox farm and also to Fort Wainwright. Math was the most fun subject I had."

"Engineering is probably the most difficult course that I take because it brings me a lot of stress. I believe that I have learned more in this class than any other."

Library Skills

The freshmen had an option of taking Library Skills. Eighty freshman took this class along with their other required classes. Listed under Kim, Parrot, Rehberg, Remond, and Sauer.

Twin Bears

Twin Bears Lake is a great place to go fishing and for Olympics. Several students from Twin Bears Lake are planning to go to the Olympics and will be camping at the lake.

It's a great place to go because it's very cool, only three people can play at a time. It's a two minute game, with a sudden death overtime.

Wayne Johnni

*My life

going by too fast, my only hope is that we can go into overtime."

Snoopy

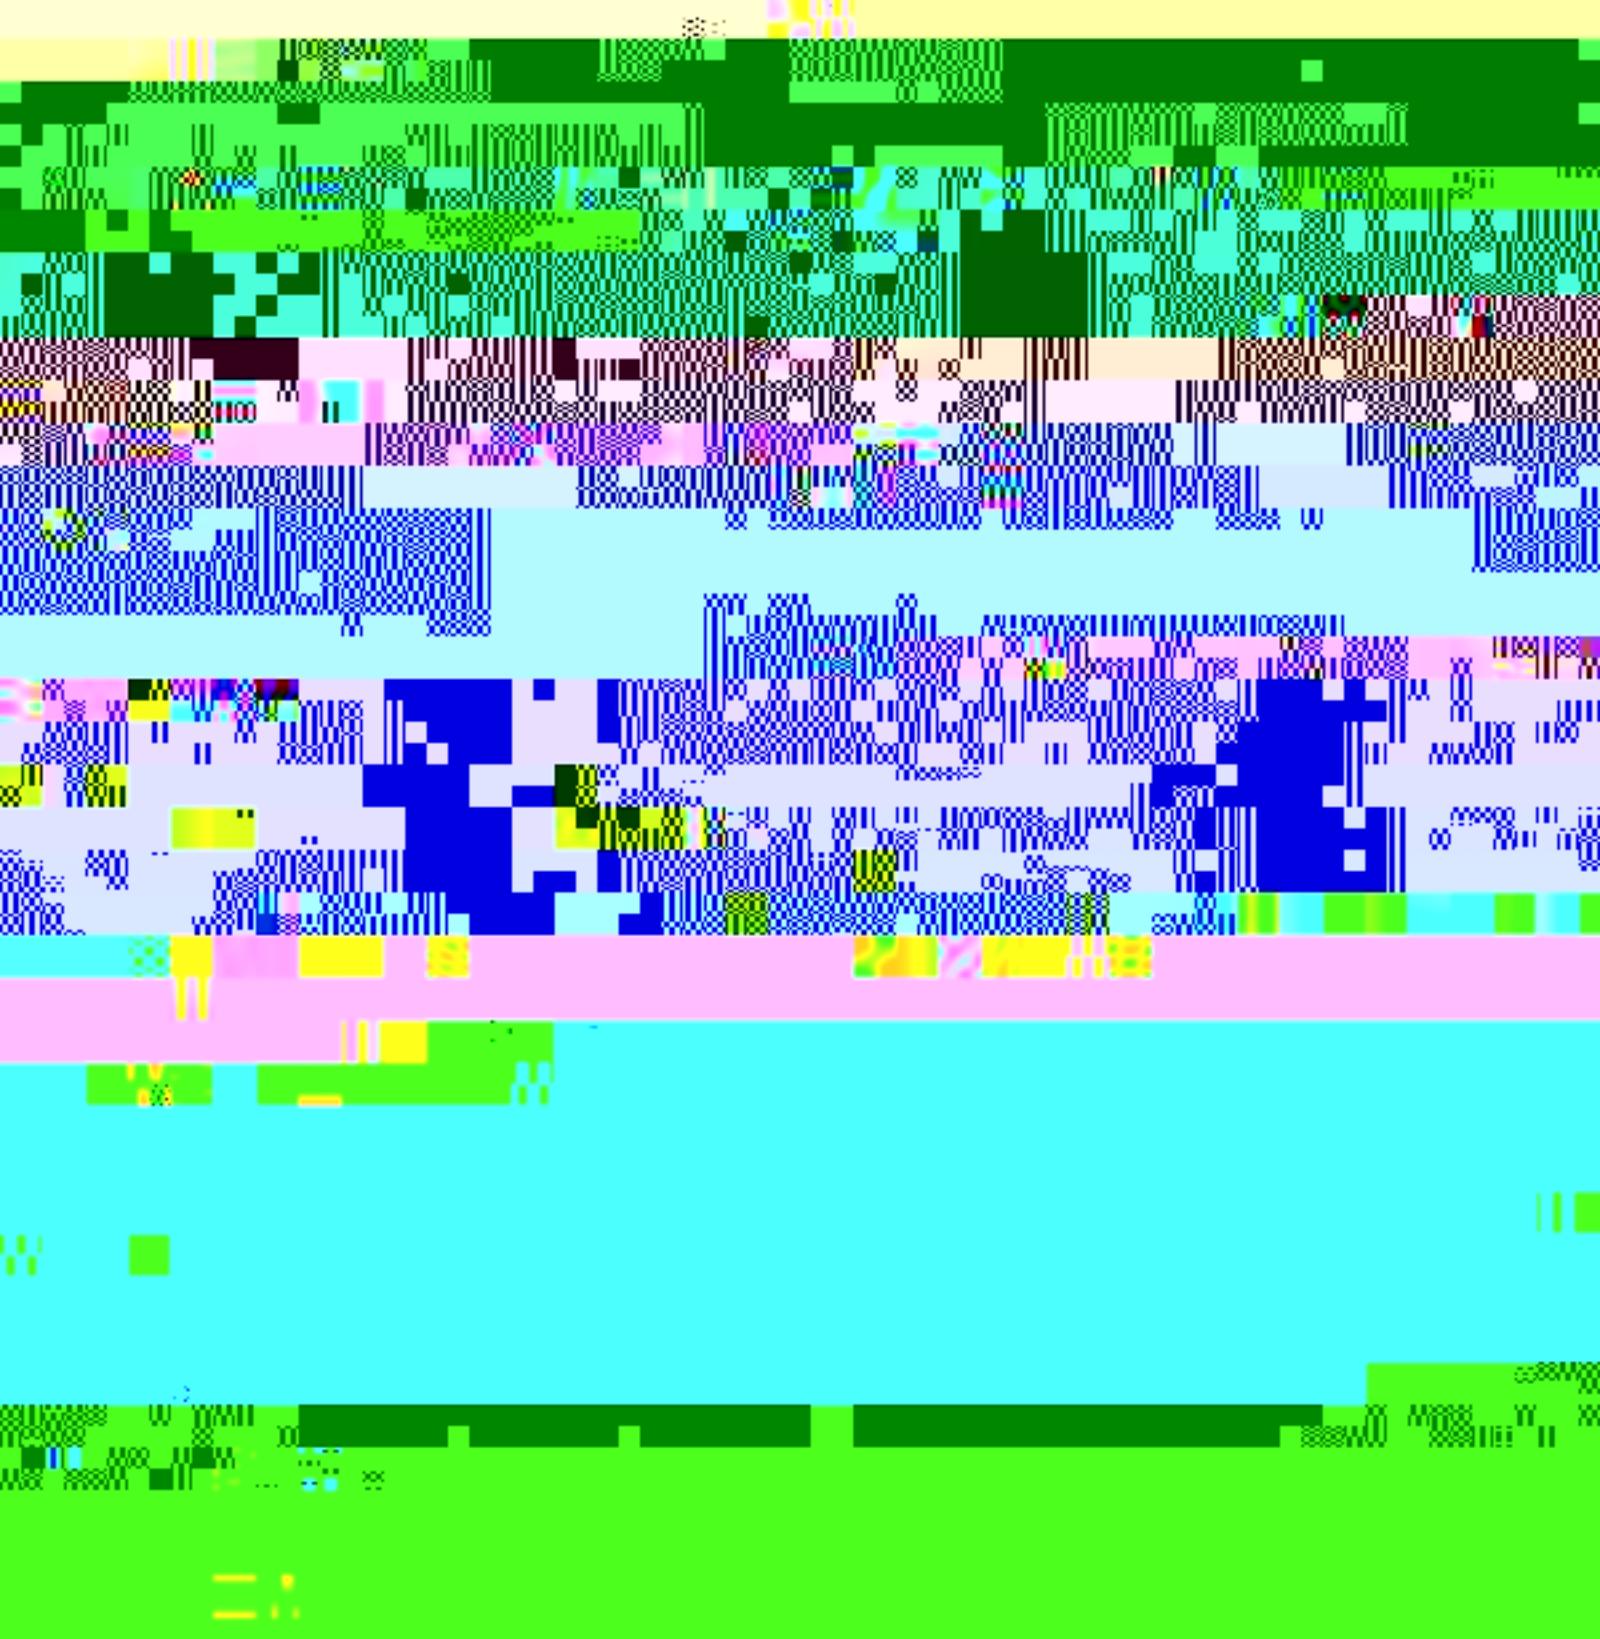

There are only five students in Math 103, and of course the instructor is one of them.

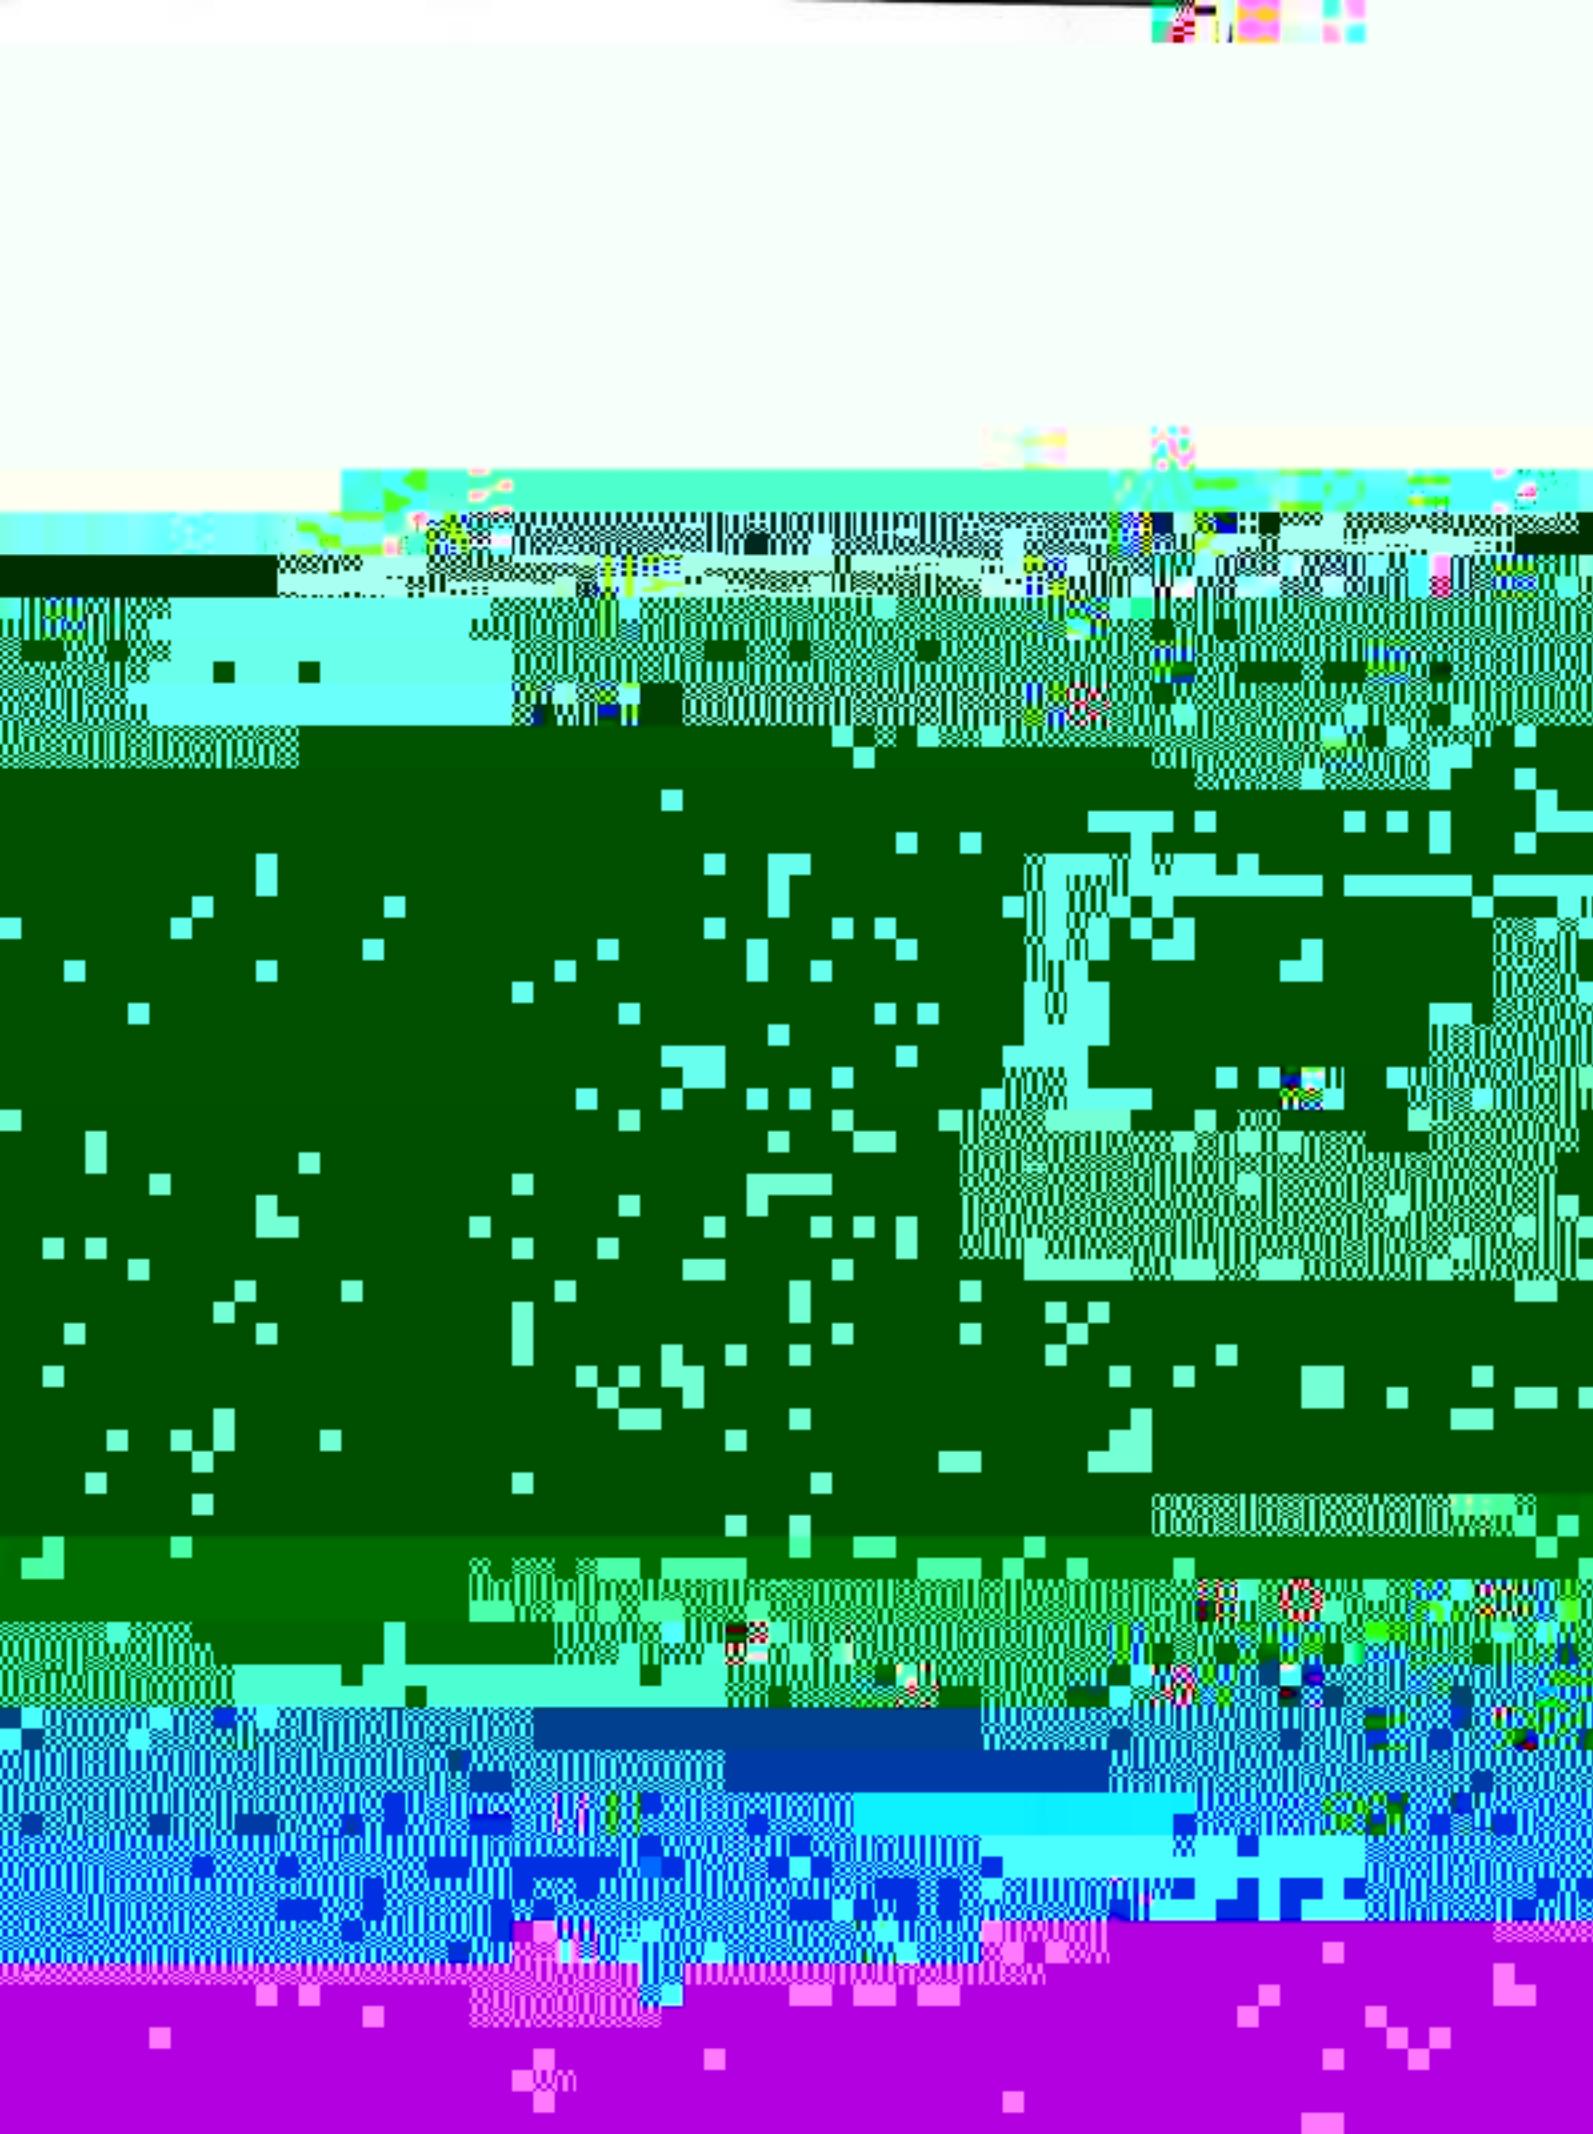

polynomials, functions and graphs, derivatives, mathematical solutions can be used a lot in real life situations.

We #1

Writing 101, George G. was a useful class to all students, whether planning to attend college or not. This class emphasized how to write a thesis paper, but also touched on writing personal essays, creative writing, and other types of writing. The major assignment of the course was the **a four to six page (1000-1500 word) thesis paper.**

Wayne Johnnie

"Minds are like parachutes; they can't fly unless they have something to hold them down."

Flower

"Whenever I see your smiling face I
have to smile myself because I love you."

James Taylor

Something there is that I'm not
which grows within me, like a flower,
like a flower:
fragile -

the beauty
or the beholder -
and imperishable -
for the beauty may die,
or the beholder may die,
or the world may end,
but the soul in which the flower grows
survives.

Eskimo Drums

The Drums Beat,
My Heart sings
A song of happiness
The Drums Beat,
My feet move,
Bringing me Alive.
The Drums Beat,
And I am one
With the spirits,
Dancing, Singing,
And Rejoicing of our
Life.

Our Hearts Beat
And are the Drums.
